Re: Yucca Mountain

Attention: Carol Hanlon:

I am greatly opposed to your Yucca Mountain Project as it is a great danger to our generation as well as to future generations. Due also to our current crises this project should be scrapped with no more consideration given.

As a citizen of Nevada I wish to go on record as opposed to this project.

Also, your E-Mail site does not accept comments. I wonder why?
I only hope that your Fax site is operative.
